

Introducing the **Key-shield** the super tough, reusable face protector

The Key-shield is a superior and robust face protector designed to be used as an aid to help prevent the contamination of the wearer from fluids such as splashes and droplets from external sources.

Made from high quality and high strength Polycarbonate, the Key-shield can be very easily cleaned and re-used. The Key-shield is suitable for decontamination washing and autoclave sterilization up to 121 - 124°C.
